HOW TO FIND DEU UN TC
INTRODUCTION

Since its establishment, the Vereinte Nationen Ausbildungszentrum Bundeswehr (VNAusBZBw) - the DEU UN TC - has trained a wide variety of audiences for deployments in conflict and crisis areas.

In the course of the centre’s many years of existence, it has gained a wealth of experience and knowledge in delivering training, not least by sending instructors to missions abroad. The lessons learned in the different operational environments and threat conditions have been exploited to continuously adapt our courses to the evolving needs and requirements of various target audiences (military personnel, civilians, police) and mission frameworks.

The network of international training facilities and our cooperation with national and international partners as well as instructors provides the constant exchange of information and experience amongst the training centres of the United Nations. The multiple lessons learned thereof drive the further development of our courses which enables us to provide realistic and relevant training. We are a NATO Accredited Education and Training Facility. Our course United Nations Military Observer Course has been certified by the Department of Peacekeeping Operation (DPO) of the United Nations and has also reached the NATO Course certification - NATO Approved. The following catalogue is an overview of the international courses conducted at the DEU UN TC.

We would be pleased to welcome you to one of our courses.

Klauffus, Colonel
Commander
MOTTO

The German Armed Forces UN Training Centre

- performs a varied and complex range of tasks
- provides joint and interagency solutions for predeployment training
- is part of a global network

QUALITY ASSURANCE POLICY

The Quality Management System of the DEU UN TC aims at meeting the Education & Training requirements defined by NATO and the United Nations through common efforts of the organic personnel, national and international students as well as external partners pursuing a concerted system approach for the establishment, execution and further development of courses and training projects.
COOPERATION

The DEU UN TC is part of a global and multinational network
