

International Symposium on Interaction of the Effects of Munitions with Structures

2009

Schwer, Len	Penetration and Perforation Simulation Techniques: Lagrange with Erosion, Smooth Particle Hydrodynamics and MULTI-MATERIAL Arbitrary Lagrange Eulerian	
<u>Eyten, Reuben</u> Eyten, Micaela; Eyten, Doron; Eyten, Alex	Post 9/11 Practical Experience in the Anti-Terrorist Protective Design Using the Sephra Risk Analysis	
<u>Fuchs, Maximilian</u> Keuser, Manfred	Repair of Damaged Structural Concrete after Contact Detonation Action By Grouting	
<u>Fuchs, Maximilian</u> Keuser, Manfred	Assessment of Structural Concrete after Contact Detonation Action	
<u>Keuser, Manfred</u> Fuchs, Maximilian; Heckersbruch, Andreas	German Position to Update of US Army Technical Manual Tm 5-1300/Navfac P-397/Afr 88-22	
<u>Gelfand, B.E.</u> Silnikov, M.V.	Over/Under Pressure-Impulse Defeat Diagrams for He, Fae and Physical Explosions	
<u>CHEN, Wang-xiang</u> GUO, Zhi-kun	Calculational Method of Penetration Depth for Bursting Layer with Erose Objects on surface Subjected to Projectile Impact	
<u>GUO, Zhi-kun</u> CHEN, Wang-xiang; SONG Feng-liang	Experiment of closed flat box structure subjected to inernal detonation	
<u>CHEN, Wang-xiang</u> GUO, Zhi-kun	Simplified Calculational Formula of Penetration Depth for Yaw-inducing Bursting Layer Subjected to Projectile Impact	
<u>Lenox, Elizabeth A.</u>	Application of Photogrammetric Techniques to Simple Civil Structures for Deflection Measurement and Damage Assessment	
<u>Renon, Garrett F.</u>	Blast pressure vs. temperature of energetic materials in a structure	
<u>Brown, Mary</u> Anderson, Mike; Needham, Charles; Watry, Craig	Temporal effects of metalized explosives in a vented structure	
<u>Anderson, Mike</u> Brown, Mary; Needham, Charles; Watry, Craig; Kibong, Kim	Aluminized explosive performance in a vented structure	
<u>Kranzer, Caroline</u>	Test Methods for Blast Loads and Classification of Explosionresistant Structural Elements According to Din En Iso Standards	
Gronsten, Geir Arne Forsen, Rickard; Berglund, Roger	Structural Break Up And Debris From Overloaded Concrete Structures Using Cased Explosives	
<u>Li, Xiao-jun</u> Shen, Jun; Yang, Yi	Experimental investigation on explosion local damage effects of steel fiber reinforced concrete plate	
<u>Kreitinger, Timothy</u>	Measuring Dynamic Blast Pressures in an Urban Structure	
<u>Nieto, Jerry D.</u>	Development of a Finite Element Model and Comparison to a Physical Model for Measuring the Response to Blast	

<u>Teich, Martie</u> <u>Gebbeken, Norbert</u>	Infrastructure Protection with Flexible and Soft Structures	
<u>Xin, Kai</u> <u>Lou, Meng-lin</u>	Shock wave in saturated soil caused explosion	
<u>Yankelevsky, David Z.</u> <u>Feldgun, Vladimir R.; Karinski, Yuri S.</u>	Blast Pressure Distribution on Interior Walls Due to a Confined Explosion	
<u>Feldgun, Vladimir R.</u> <u>Yankelevski, David Z.; Karinski, Yuri S.</u>	The Response of a Structure Buried in a Porous Saturated Soil to an Underground Explosion	
<u>Genelin, Christopher L.</u> <u>Hoemann, John M.; Salim, Hani A.; Dinan, Robert J.</u>	Evaluation of Blast Resistant Rigid Walled Expeditionary Structures	
<u>Mataradze, Edgar</u> <u>Krauthammer, T.; Chikhladze, N.; Chagelishvili, E.; Kalichava, I.</u>	Choice of Design Parameters of an Underground Shock Wave Absorber	
<u>Daykin, Frances</u>	Effect of Shape, Yaw and Tumbling on Penetration Depth of Long Rod Fragments	
<u>Herzog, O.</u> <u>A. Klomfass</u>	Simulation of Blast Propagation in Urban Scenarios Using a Specialized, Automated Solver	
<u>Dorsch, Heinrich</u> <u>Roßberg, Daniel; Turek, Wolfgang; Dörr, Andreas</u>	Modeling of Mid Caliber Munitions Effects against Infrastructure Targets	
<u>Kummer, Peter</u>	Wall Perforation by Explosion Produced Debris A Brief Update on Swiss Tests	
<u>Teland, Jan Arild</u> <u>Kiran, Jo Hagness</u>	Penetration model for highly irregular fragments	
<u>Kiran, Jo Hagness</u>	A method for estimating the fragment characteristics from an IED	
<u>Häring, Ivo</u> <u>Aschmoneit, A.; Richter, C.; Gürke, G.; Brombacher, B.; Ziehm, J.</u>	Damage assessment modeling for explosion effects	
<u>Lundgren, Ronald G.</u> <u>Baty, Roy S.; Tucker, Don H.</u>	The Blast Wave Mitigation Effects of a Magnetogasdynamic Decelerator - Part 1 and Part 2	
<u>Leong, E.C.</u> <u>Anand, S.; Lim, C.H.</u>	Peak Parameters from an Underground Explosion	
<u>Lu, Hong-biao</u> <u>ZHAO, Fan; CAI, Li-gen; YAN, Dong-jin</u>	Experimental Study on the Performance of Square-shape Assembled steel rope isolator	
<u>Yavuz, M. Sarper</u> <u>Bozkaya, K.; Bingöl, Ç. Görkem; Ayisit, Oguzhan</u>	Optimization of the Tri-Conic Nose Cone Geometry of a Penetrator in Terms of High Strength Concrete Penetration by Using Hydrocode Simulations with the Aid Of Response Surface Method (Rsm)	
<u>Tank, Amy K.</u> <u>Moxley, Rayment E.; Adley, Mark</u>	Concrete and Brick Wall Response to Kinetic Energy Impacts	
<u>Magallanes, Joseph M.</u> <u>Martinez, Ruben; Nesor, Aloyse; Schreiber, Dietmar; Zencker, Uwe</u>	A Comprehensive Material Testing Program for Characterizing Concrete Behaviors under Dynamic Loads	
<u>Borgers, Jody</u> <u>Vantomme, J.</u>	Airblast interaction from a linear array of detonating sources	
<u>Miraglia, Michael J.</u> <u>Leininger, L.; Marjanishvili, S.</u>	Risk Based Air-Blast Criteria Determination	
<u>Hulton, Frederick</u>	The Development of Gabion Based Protective Structures	
<u>Lööf, Annika</u> <u>Magnusson, Pernilla</u>	Survivability of Windows under threat of IED	
<u>Linse, Tobias</u> <u>Gebbeken, Norbert</u>	Methods for rapid assessment of small calibre impact of rigid and deformable projectiles on concrete targets	
<u>Vretblad, Benqt E.</u>	Quantity-Distances the best Distances we have?	

<u>Akers, Stephen A.</u> Ehrgott, J.; Rickman, D.; Williams, E.; Danielson, K.	Blast Environments From Surface-Laid and Buried Bare Charges: A Joint Experimental and Simulation Effort	
<u>Yim, Hyun Chang</u> Krauthammer, Ted	Effects of Connection Behavior on Progressive Collapse of Steel Moment Frames
